

MicroSpray™

Microspray™ provides continuous control of odours by automatically releasing fine sprays of metered aerosol fragrances. Available with an easy to use three timed release option, or fully programmable option, **Microspray™** provides fragrance coverage for up to 600 cubic metres.

Microspray™

- Strong chemical resistant polypropylene plastic
- Easy aerosol replacement
- Three timed release-rate switch - 7.5/15/30 minute options
- Low battery / empty can indicator
- Hidden external instant test switch
- Lockable dispenser with generic TimeMist key

Microspray™ +

- Same features as Microspray above plus...
- Complete flexibility of start/stop time
- Complete flexibility of spray time between 1 and 60 minutes
- Off day programmability e.g. Saturday/Sunday
- Day's remaining can life indication
- Simple, intuitive programming

The TimeMist **Fruits & Flavours** range provides contemporary fragrancing for the cost sensitive customer and is ideal for use within washrooms or other problem areas. Designed for use with Microspray metered fragrance dispensers, the TimeMist **Fruits & Flavours** range includes five popular fragrances, all of which incorporate high quality TimeMist oils.

With distinctive labelling including clear and descriptive fragrance explanations, the TimeMist **Fruits & Flavours** range gives reliable and effective fragrancing for 3000 metered sprays.

Available in Vanilla, Cinnamon, Spicy Fruit, Citrus and Mango.
